Introduction

Faced with the challenge of ensuring that more than 20,000 contaminated sites in New Jersey are properly remediated in a timely manner, the New Jersey Department of Environmental Protection (NJDEP) worked closely with the New Jersey Legislature and stakeholders to develop legislation that will dramatically change the process used to conduct environmental investigations and cleanups. On May 7, 2009, Governor Jon Corzine signed the Site Remediation Reform Act ("SRRA") into law. The Governor also signed Executive Order #140, implementing the new law. SRRA, which provides sweeping changes to the way in which sites are remediated in New Jersey, also amends other statutes such as the Brownfield and Contaminated Sites Act and the Spill Compensation and Control Act.

SRRA establishes a program for the licensing of Licensed Site Remediation Professionals ("LSRPs") who will have responsibility for oversight of environmental investigation and cleanup. While the law changes the process of how sites are remediated, it ensures that the same stringent standards required for cleanup remain intact. The NJDEP will retain significant authority over the remediation process and ensure that LSRPs comply with all applicable regulations, but the day-to-day management of site remediation will be overseen by qualified LSRPs.

Course Description

This one-day program is designed to familiarize practitioners of and those associated with site remediation such as attorneys, property owners, developers, environmental advocates and government officials about the new way of doing remedial business in the Garden State. The newly adopted regulations will be discussed in depth by NJDEP officials who developed them. In addition, an end-of-the-day panel will be lead by the Licensed Site Remediation Professionals Association to guide practitioners and other attendees through their future roles under NJDEP's Technical Regulations. This will include the impact of the implementing regulations on LSRPs, other stakeholders, and NJDEP.

Faculty Coordinators

Susan Boyle, GEI Consultants, Inc. and President, LSRP Association
Murdo Morrison, NJ Department of Environmental Protection

Instructors

Representatives from the NJDEP will teach the seminar and be available throughout the day to answer related questions. For the end of the day panel, members of the Licensed Site Remediation Professionals Association, some who have worked under the Massachusetts program, will share their insights on how your practice will be impacted by NJ's new regulatory process.

Here is a sample of what you will learn:

- How to navigate through the new rule process
- A review of the administrative rules
- A review of changes to the technical rules
- New fee structure and new submittals
- When, where, how, and the overall process for submittals
- An overview of guidance documents referenced in the rules

4 CONVENIENT WAYS TO REGISTER

Phone: 732.932.9271, M-F 8AM - 4:30PM. Please have your Visa, Mastercard or AMEX number ready.

Fax: 732.932.8726, 24 Hours. Please include credit card information or copy of your check, money order or purchase order with your fax.

Mail: Registration Desk, NJAES Office of Continuing Professional Education, Rutgers University, 102 Ryders Lane, New Brunswick, NJ 08901-8519.
Please make check payable to: **Rutgers University**

Web: Please visit our website at: www.cpe.rutgers.edu for information.

Payment Policy - All students must have prearranged for payment to be admitted to the class (purchase order, check, VISA, Mastercard, American Express or money order).

Refunds - You may withdraw from this course with a full refund (minus a \$50 processing fee) provided our office is notified at least three (3) full working days prior to the start of the course. Beyond that time, registrants may be responsible for the full registration fee. **Substitutions are welcomed.**
